

Circular Letter No. 58.

December 9, 1910.

To Supervising Principals.

Gentlemen:--

It is the desire of the Department of Education to cooperate with and aid you, through the Division of Supervision, in every way possible to the betterment and steady improvement of the work done by the teachers under your immediate direction.

During the past few weeks several communications have been received from Supervising Principal requesting that the Department write a letter to certain teachers calling attention to the necessity of putting forth their best efforts in order to obtain more satisfactory results.

In case you note any special weakness or defect in a teacher's work, which is of sufficient importance to prevent the satisfactory progress of her pupils, and you find that the suggestions which you give are unavailing, send in a brief statement of the facts to the Department, and special suggestions, helps or friendly criticisms, as the case may warrant, will be sent to the teacher or teachers in questions.

Yours very truly,

Acting Commissioner
